Organizations that demonstrate continuing commitment to leadership development will have a competitive advantage in challenging times. Highly effective leaders create significantly better business results when compared to their less effective colleagues. *The Advancing The Extraordinary Leader (ATEL) Workshop* supports leaders who previously experienced *The Extraordinary Leader* as they assess their progress toward increasing their personal leadership effectiveness in the current environment.

Dr. Joe Folkman will lead this research-based, strengths-focused 3-hour session to guide participants as they discover insights and update their actionable development plan. Participants receive a gap analysis report, based on previous *Extraordinary Leader* 360-degree feedback and current reassessment results along with materials to support a renewed individual development plan.

* Prerequisite: *Previous completion of The Extraordinary Leader 360-degree assessment.*

Agenda

- CPO Model Revisited
- Ideas to Increase Success
- 4 Ways to Combine Development and Work
- How to Include Your Manager
- Peer Coaching
- A Look Ahead
